ANOTHER \$20,000 FOR ALEXANDER BANK CREDITORS

By a recent decision handed down in the Court of Appeals at Frankfort another \$20,000 will be placed in the hands of the State Banking Commissioner to be distributed among the creditors of the defunct George Alexander & Co. State Bank of Paris.

George Alexander, at the time of the closing of the bank by the Banking Commissioner, owned 175 shares of stock in the Power Grocery Co., of Paris, amounting to a 6-20th interest. Alexander, previous to the closing of the bank, had borrowed money from the institution, putting up his stock in the Power Grocery Co. as collateral security. The Banking Commissioner required the bank to dispose of the stock, as under the State laws a bank was not allowed to own stock in another corporation. Acting for the bank, Alexander transferred the stock to M. J. Murphy, Henry Fuhrman, Warren Bacon and others, taking their notes for same, which were being carried as assets of the bank at the time of the closing.

Henry A. Power, president of the Power Grocery Co., endorsed certain notes for Alexander, which were outstanding at the time the bank closed. These notes were paid by Power out of funds of the Power Grocery Co., Power, claiming that the amounts so paid were advancements to Alexander, and also claimed a lien on Alexander's interest in the grocery company, prior to the claims of the bank. The matter went into litigation. After the closing of the bank Alexander made an assignment for the benefit of his creditors. His assignee claimed his interest in the Power Grocery Company should go to his creditors. The Banking Commissioner agreed on this point with the assignee. The Power Grocery Company claimed it had first claim. The directors of the bank claimed it should go to the Banking Commissioner for the benefit of the bank's creditors.

The Bourbon Circuit Court decided the point at issue in favor of the assignee. The case was taken to the Court of Appeals by attorneys for the bank and the Power Grocery Company. The lower court was reversed, and the decision rendered was that the Alexander interest in the Power Grocery Company should revert to the bank for the benefit of its creditors.

THE REBEKAH LODGE

An important meeting of the Paris Lodge of Rebekas was held at their lodge room Wednesday night. Mrs. Elizabeth Hines, of Georgetown, State President of the Rebekah Assembly, was present on an official visit, and made an interesting address to the lodge. The address and the visit of Miss Hines made a most favorable impression, and both were greatly enjoyed by the members.

BOURBON POST AMERICAN LEGION HOLDS MEETING

Initial steps toward securing suitable club rooms for the Bourbon Post American Legion, were taken at a meeting of the organization, held in this city, recently. The rooms are intended for the use of all the former service men now residents in the city and county. As a means of raising funds toward this end the Post voted to give a subscription dance in the Masonic Temple, in this city on the evening of Wednesday, March 10. A committee was appointed to make the event the biggest thing Paris has experienced in a long time in the way of a social entertainment.

At the meeting another important matter was acted upon, having reference to the proposed bonus to be granted by the Government to all ex-service men. The Bourbon Post took the position that the American Legion was not organized for selfish motives, and, therefore, it would be inconsistent with its principles to make any requests from Congress for a bonus. This action was taken in response to repeated requests from many legislators that the local organizations of the American Legion demand of Congress that the ex-service men be given a bonus.

The two delegates who were sent from Bourbon Post to the conference with the War Risk Insurance representatives from Washington, at Louisville, will now be in a position to aid the other members in solving their insurance problems, or any other that may arise. The membership campaign has progressed so well that it was voted to continue it through this week. About thirty new names have been enrolled and others are coming in each day.

The headquarters of the Post are still in the Red Cross office in the First National Bank building. The regular meeting for the first Friday in March has been postponed one week, so that the next meeting will be on the night of Friday, March 12, at the court house.

GOOD NEWS FOR TEACHERS.

The Bourbon County Board of Education, at a recent meeting held in the office of Superintendent of County Schools, J. B. Caywood, in the court house, voted to increase the pay of the teachers of county schools from \$48 and \$76 per month to \$75 and \$125 per month. This will be good news to the teachers, whose meager pay has been inadequate to meet the demands of the increased prices on supplies of every description. The Board also decided to continue the school term until May 15, giving a full eight months' session. An increase to twenty-five cents on the \$100 for school purposes will increase the school fund to about \$50,000. This action was taken in accordance with the new educational law recently passed by the Kentucky Legislature.

TOBACCO MARKETS

The Bourbon Tobacco Warehouse Co., sold Wednesday 62,340 pounds of tobacco from two cents to \$1.00 per pound. Receipts are small, market very active and strong. The next sale will be on Friday, March 5, and on Monday, Wednesday and Friday of next week, when the market will close for the season. Remember the closing date, Friday, March 12. Some crop averages follow:

Willis Rye & Son, 2,620 pounds, average \$57.01.
A. G. Jones & Shields, 3,260 pounds, average \$32.70.
J. R. Grimes, 3,740 pounds, average \$52.62.
Mrs. J. K. Todd, 5,675 pounds, average \$53.35.
Roseberry & Day, 2,290 pounds, average \$46.55.
A. C. Day, 2,165 pounds, average \$35.91.

FATHER-AND-SON BANQUET

The "Father-and-Son Banquet" Committee has estimated the capacity of the Y gymnasium and find that 200 is as many as can be seated. If necessary, however, the regular dining room, which seats 40, will be used. In addition to the Tickets Committee of "dads," the following boys have been put on the committee to see that the "dads" ask the boys: Ussery Wilder, Vail Baldwin, Jim McClintock, John Woodford, Cletis Chipley and Howard Roberts.

Prof. Kirkpatrick has been added to the Program Committee, and will assist in selecting the speakers and novelty stunts, of which there are sure to be many.

One Sunday School teacher has asked to bring fifteen boys—all of his Sunday School class. However, the committee decided that fifteen boys were too many for one man to try to be "daddy" for.

BASKET BALL.

The Girls' State Basket Ball Tournament will be held in the Y. M. C. A. gymnasium, in this city, on March 12 and 13. Eleven teams have been invited to take part in the tournament, Lexington High, Clark County High, Winchester High, Georgetown High, Cynthiana High, Nicholasville High, Maysville High, Frankfort High, Danville High, Carlisle High and Paris High. Games will be played Friday afternoon and night, Saturday and Monday afternoon and night. Season tickets will be sold at \$1.00.

The boys' basket ball team of the Russell High School, colored, of Lexington, will play the team from the Western High School, of this city, at the Booker Washington gymnasium, in Lexington, to-night. This game will be the second game in the series for the championship of the Bluegrass. The contesting teams are the Western High School, Chandler School, Normal School and the Russell High School. There will be a preliminary contest between girls teams from both schools.

Not to be outdone by their elders, the Midget team of the Paris High School will get into the basket ball game. The Midgets will play the Midget team from the Lexington High School this (Friday) afternoon and evening. The game in the afternoon will be for entertainment of the school children in the first eight grades, and will be free to them.

The game in the evening will be open to the public; the admission price being placed at twenty-five cents for adults, and fifteen cents for children. The teams will line up as follows: Paris—Tucker and Cahal, forwards; Knox—center; Morrison and Armsparger, guards; Collier, substitute; Lexington—Davis and Felsenthal, forwards; Milward, center; Sharp and King, guards. The Cynthiana Democrat says: "The Cynthiana High School basket ball team will play a double-header here Friday night, March 5, against their old-time rivals, the Paris High School boys and girls. The games, it is predicted, will be the best and most exciting of the season. The Paris boys are running high for the championship of the State. Only two more games are to be played at home this season, so Friday night is next to the last chance to see a basket ball game this year."

TELEPHONE LINEMAN INJURED.

Robert Fuller, thirty, a lineman in the employ of the Cumberland Co., in this city, is at the Massie Memorial Hospital, in a critical condition, as the result of injuries received by being run over by a five-ton truck. His jawbone and shoulder were broken, and his face and head badly injured. The injuries to his mouth and nose were of such a character as to render breathing very difficult, necessitating the use of artificial respiration.

The accident happened near Millersburg, where Fuller was assisting in making repairs to Cumberland lines damaged by the recent sleet. A Millersburg physician was summoned and administered first-aid treatment. He was brought to the Massie Memorial Hospital. Reports from the institution yesterday stated that Fuller was resting comfortably, and would recover. He is married and has one child.

EDWARD SIMMS HAS OPTION ON NOTED RACER

A tip is out that Ed. Simms, the owner of many valuable oil properties, and former Bourbon countian, has an option on Prince Pal, an entrant for the Kentucky Derby. It is said that Mr. Simms has authorized Doctor McCullough, an Eastern veterinarian, to look at the colt, which is now training in the stable of former United States Senator J. N. Camden. Should Mr. Simms purchase Prince Pal he will wear his colors in the Derby and probably be prepared for the race by Cal Milam, Senator Camden's trainer. Prince Pal is the property of the estate of the late Jere Wheelwright. He is by Prince Palatine, one of the most fashionable sires in England.

Walter S. Meng was elected Temporary Chairman and Julian Frank Temporary Secretary. The permanent organization is to be selected at a meeting to be held sometime within the next two weeks.

REPUBLICAN STATE CONVENTION MEETS IN LOUISVILLE

In a convention at Louisville, Wednesday, attended by some two thousand Republicans from all parts of the State, many of whom undoubtedly harbor the honest belief that Kentucky is going Nationally Republican this year, the issues on which the battle will be waged were outlined and the party campaign machinery assembled and put in motion.

Governor Edwin P. Morrow, National Committeeman Alvin T. Hert, Mrs. John G. South and Dr. S. H. George, the latter a negro from Paducah, were named by the convention as the four delegates-at-large in the Chicago Convention.

The Republican State Central Committee was increased to 15 by addition of Mrs. Langley and Ed. Chenaunt, Lexington negro, to the list.

The first three were elected without opposition and by acclamation, but the selection of the negro member of the delegation was only had after a hard fought battle for votes in which Roscoe Conklin Simmons, a Louisville teacher, and George F. David, a Lexington preacher, were the losers.

The defeat of Simmons was the single break in the slate as prepared before the convention assembled, all other nominations going through without a hitch.

Delegation alternates chosen were Dr. Ben L. Bruner, of Louisville; H. Green Garrett, of Winchester; Mrs. John W. Langley, wife of the Eleventh District Congressman, and George F. David, Lexington negro.

Not a mention was made of any Republican "possibility" for the Presidential nomination, and the delegates were ordered by the convention to go to Chicago untroubled.

The convention resolutions and the principal addresses of the day, particularly the keynote speech sounded by Attorney General Chas. I. Dawson, who served both as temporary and permanent chairman, were given largely to bitter criticism of the Versailles treaty, the League of Nations, President Wilson and the way the war was fought under the Democrats.

The resolutions charge the President with using war powers for "partisan purposes and the advancement of personal interest;" commend the United States Senate for its "courageous stand" against the treaty as drawn at Paris; and the President also guilty of "attempting to coerce the Senate to surrender American sovereignty," and finally "deplore the failure of the President during his absence from the country, and later during his inability, to observe the constitution and provide for the discharge of the duties of his office by the Vice-President." Chesley Searcy was elected to be Chairman of the Republican State

AMEN! AMEN!

At Henderson, the grand jury refused to return indictments against Louis Hayes, Morris Holtzman and G. B. Duxley, proprietors of moving picture shows, for giving performances at their houses on Sundays. They were later presented in Police Court on the same charges and fined the lowest fine permissible under the statutes, \$2.00 and costs.

The defendants admitted the charges and contended that public sentiment, in spite of the opposition from the clergy and others, was strongly in favor of Sunday movies. The proprietors declare they will continue to operate on Sunday, with the great common people backing them, while the ministers say they will get out warrants every Monday morning for them. You pay your money and takes your choice!

On a recent Sunday evening, in New York, by actual count, standing room was at a premium in every theatre offering a Sunday concert, and in the churches of the district were 17,787 persons. The Sunday "secular" theatrical concerts are to comply with the State Sunday theatre law. Song and dance artists, and girl and music stuff are only permissible.

THE INFLUENZA SITUATION.

Though weather conditions have been extremely favorable for the spread of influenza, the situation here is unchanged. Physicians and health officials do not apprehend an epidemic of the disease, and have the situation well in hand. The disease is present in a light form, with only a few deaths resulting.

The health authorities are again urging the observance of sanitary precautions in order to prevent a recurrence of an epidemic. The disgusting habit of expectorating in public places is one of the chief means of spreading disease. Common decency should impel people to stop this. But then so many people are paralyzed at the thought of being decent and sanitary!

At Irvine and Ravenna the influenza situation has assumed a serious aspect. Schools and churches have been closed at Irvine. No deaths have been reported. The disease has assumed the epidemic form in Whitesburg, while hundreds of cases are developing every day. Hundreds of cases are reported from Montgomery county, where the disease is again prevalent.

Physicians have been kept busy day and night. In a few instances only has pneumonia developed. At Versailles the schools have been closed on account of the flu. Two hundred cases, though of a mild character, are reported there, with no deaths. In all the surrounding counties the same conditions obtain.

Going Back to the Beginning.

The first hole that early man made in a piece of shell or stone was by a blow of a stone hammer, which happened to strike in such a way as to knock out a small bit of the stone or shell, says Dr. Clifton Harby Levy. When this man saw the hole and noted its convenience, he slipped the sinew of a deer into the shell or stone and hung it around his neck as an ornament. Others began to ask themselves how they could make holes in things and, taking a bit of pointed stone, they worked with that until the hole was drilled.

AMERICA'S RAIL SYSTEMS RETURNED TO OWNERS.

WASHINGTON, March 4.—America's rail transportation systems, operated as one great republic utility since December 28, 1917, again were divided among their 230 respective corporate owners Monday, as the Government released control at midnight.

Director-General Walker D. Hines, as the agent of the President, handed over the properties and equipment, valued at approximately \$20,000,000,000, to their old direction, free, except for the jurisdiction retained by the Government in the new railroad reorganization bill.

While all arrangements for formal restoration of the carriers to their owners were completed, Saturday by Mr. Hines, instructions went out Sunday to operation representatives of the Railroad Administration informing them that they would "report to the proper officials of the corporations which resume control at 12.01 a. m. March 1."

Of the gigantic organization formed by former Director-General William G. McAdoo as a war-time expedient, only a small part will remain.

Regional officials, Federal managers and Treasurers and other high officials comprising the Director General's staff ceased to function as such at the designated hour.

Certain of these have gone back to their former places as officials of the corporations, while others have entered into new lines of endeavor.

Mr. Hines will continue in his present capacity until about May 1. Although without any railroads to direct, he still faces the settlement of literally thousands of claims, contracts and grievances.

Only 147 of the 230 compensation contracts with the corporations actually were signed during Government control, and the remainder will continue to be the subject of negotiations.

Damage claims have arisen, of which many still are pending. Lobar has thousands of cases before Government wage boards and Mr. Hines has assured labor spokesmen these will be concluded.

DAYTON WOMAN RELATES FACTS

Was Wonderfully Restored Three Years Ago By Tanlac—Good Continue.

"I can testify to both the immediate and lasting results one gets from Tanlac, for it has been three years now since it relieved my suffering and built me up so wonderfully and I am still enjoying the best of health," said Mrs. Lena Kingery, of 136 Kirkham avenue, Dayton, Ohio, while discussing the medicine recently.

"My stomach had been in such a bad condition for two years," explained Mrs. Kingery, "that I could not eat anything the least bit heavy without feeling sick afterwards, and I seldom ate any breakfast at all. My nerves were so shattered that I could never get sufficient sleep and I felt tired and worn out all the time. I was seldom free from the worst kind of headache and my stomach troubled me nearly all the time. In fact, I don't think there was a single day during those two years but what I felt miserable and none of the many medicines I took did me any good."

"So many people here in Dayton were making statements and praising Tanlac that I began taking it myself and it certainly is wonderful how quickly this medicine got me to feeling right again. By the time I had finished my first bottle there was a considerable improvement in my condition. My appetite was much better, I could sleep soundly, and that tired feeling left me. Then I got another bottle, then another and when I finished the three bottles every sign of my troubles had disappeared. Since that time I have been eating just anything I want, sleeping like a child, and feeling fine all the time. I was just telling some friends to-day it seems hard for me to eat enough to satisfy my appetite. I remember how disappointed I was at not being able to enjoy Thanksgiving and Christmas dinner during the two years my stomach was in such a disordered condition. But since taking Tanlac I enjoy these occasions like other people, for my appetite is splendid, my stomach is in excellent condition and my health is fine."

Tanlac is sold in Paris at Peoples Pharmacy. (adv)

WHY COLDS ARE DANGEROUS.

You are often told to "beware of a cold" but why? We will tell you: Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ diseases, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take.

EXPERIENCED NURSE GIVES GOOD ADVICE

Trained Nurse Says That Trutona Is a Real Medicine, Try It.

LOUISVILLE, KY., March 4.—With the exception of the doctor there are probably none so familiar with medicines, and therefore more capable to judge the merits of a preparation than the nurse. That is why the following statement made by Mrs. F. C. Spanner, formerly a nurse at the city hospital here, here, should prove especially convincing to hundreds of people. Mrs. Spanner has taken Trutona and knows from experience just what it will do.

"My system was generally run down," said Mrs. Spanner. "I had digestion so badly that I could hardly eat anything. My back would ache frequently and I often had headaches which would be accompanied with dizziness. I felt tired all the time and could hardly do my housework. I tell you I was in an awful shape."

"I was formerly emergency nurse at the City Hospital, and ought to be able to judge the merits of a medicine, when I have had experience with all kinds for years. Well, sir, the first time I tasted Trutona I said, 'There's a real medicine, alright.' I give Trutona credit for making a new woman out of me, and did it after many other medicines had failed. I can eat heartily now and the food digests properly. I get up in the morning feeling fine and able to do my housework. I hope other people who are suffering will take the advice of a nurse who knows and try Trutona."

Trutona is now being introduced and explained in Paris at G. S. Varde & Son's drug store. (adv)

HEALTH OFFICER SAYS INFLUENZA DOESN'T REPEAT.

Persons once suffering from influenza are immune, according to statements of Kentucky physicians cited by Dr. J. N. McCormick, of the State Board of Health.

Dr. McCormick said many physicians who had been making a close study of the disease had reported that all of their cases apparently were "new."

"Men from whom these reports have come are reliable and I will instruct every physician in the State to watch influenza patients closely and make careful diagnoses in an effort to substantiate their discoveries," Dr. McCormick said.

The Board of Health reports show that none of the sufferers from influenza this year had been stricken in any previous year when the disease was prevalent.

In the reports submitted by physicians from various parts of Central Kentucky, Paris was credited with thirty cases of influenza, and one death; Lexington, eleven cases, two of pneumonia, and three deaths; Maysville, six cases, and one death.

BEN FRANKLIN.

This month marks the 241st anniversary of the birth of Benjamin Franklin. And this is a good time to renew the acquaintances with old Ben, who was greater even as a moral philosopher than as statesman.

In a period of extravagance and spiritual restlessness, Ben Franklin's voice has the welcome and helpful sound of a good parent's voice to a troubled child.

When he was still a young man, Franklin wrote a set of principles whereby to discipline his life. And he kept books on himself, giving himself a black mark whenever he failed to live up to one of his own rules. He aimed to have a clean page every day.

Franklin's personal principles as set forth in his Autobiography were:

Resolution: Resolve to perform what you ought; perform without fail what you resolve.

Frugality: Make no expense but to do good to others or yourselves. Waste nothing.

Industry: Lose no time; be always employed in something useful; cut out all unnecessary actions.

Sincerity: Use no hurtful deceit; think innocently and justly, and, if you speak, speak accordingly.

Justice: Wrong none by doing injuries or omitting the benefits that are your duty.

Moderation: Forebear resenting injuries as much as you think they deserve; avoid extremes.

Tranquility: Be not disturbed at trifles, or at accidents common or unavoidable.

Humility: Imitate Jesus and Socrates.

These make pretty good basic principles for the reconstruction of which so much is said and so little done. There can be solid national reconstruction only on a strong foundation of individual self-discipline and responsibility.

If Franklin were alive to-day he would be a strong advocate for the Treasury Savings Certificates, War Savings Stamps and Thrift Stamps. He would continue to be actuated by thrift and patriotism.

Don't hide your light under a bushel under the impression that you are saving yourself a pack of trouble.

BIG DAILIES "HOGGING" WHITE PAPER SUPPLY.

Until within recent years newspapers never quit—they just passed on from one owner to another. But now publishers fail in business, just like other business men. Publishing has become a matter of first importance in the nation, and likewise its hazards have increased. The time has passed when you can take a dull boy and "make an editor out of him," as the poet Will Calhoun put it. Twenty-five hundred newspapers have suspended publication since July, 1918, but still the Postoffice Department cries savagely for higher rates for second-class mail matter. They lay their deficits at the door of the publisher, and even try shifting some \$58,000,000 annual loss in the rural free delivery service to the newspapers.

It would be a pleasure to report that there was a prospect that the government would limit the size of the big city papers. The excess fat that cannot be classified as "news" in Sunday editions consumes enough white print paper to provide thousands of small weeklies and dailies. But the government is not likely to intercede, and meanwhile the big publishers with their clutch on the white print paper supply are the big fish in the pond, whose greediness has jumped the price of print paper out of sight. Evidently the bigger the publishers the less their worry about the white print paper condition.

What's Your Farm Worth?

What did your tobacco crop bring you? Do you know that the demand for export and the increased consumption of "Bright Leaf" forced unusually high prices and really FORCED the market above what it would have been under normal export and ordinary increase? You know that every abnormal market must react. Well that's history and part of it caused by the late war, but it all has to do with our question, "WHAT'S YOUR FARM WORTH?" If tobacco prices hold up, farm lands in Kentucky will continue to hold up. If the bright leaf market is lost by the destruction of cigarettes, farm lands will go down with falling prices. One farmer was bemoaning the increase in his land tax. He seemed to forget that land he bought for \$125.00 an acre now commands \$450.00. We can't keep it all. Even Uncle Sam wants his share. So if our land is valued at two or three times what we paid for it, we must pay higher taxes. That is settled. Now what will your farm land be worth if you cannot raise tobacco? Some folks are mighty busy already against tobacco, and we suggest that if you do not know what is going on, that you write the ALLIED TOBACCO LEAGUE OF AMERICA, Pickering Building, Cincinnati, O. If your farm is worth it—better keep posted anyway. Are you interested enough to write for information on "How To Keep Farm Land Producing Profits?" Be informed and then you will know and appreciate what is being done to conserve your farm investment. (2-4t)

NEWSPAPER PUBLISHERS TO MEET IN LOUISVILLE.

Kentucky and Tennessee newspaper publishers, members of the Southern Newspaper Publishers' Association, will gather in Louisville, Wednesday, March 10, in a special meeting to consider conservation of paper and other economies in relation to newspaper production. A regional meeting of the American Newspaper Publishers' Association will be held during the afternoon of the same day. Sessions will be held at the Watterson Hotel. A member of the postal committee of the Southern Association, who was in Washington attending the conference on postal rates, may be present at the meetings, if efforts now being made materialize. A. RESULTS ARE AMAZING, SAYS THIS WOMAN

"I Can Feel Vola-Tonic Helping Me," Says Mrs. Nageleisen.

Although Mrs. Emma J. Nageleisen, of Apartment No. 5, at 333 West Ninth street, Cincinnati, O., has taken less than one bottle of Vola-Tonic, "Builder of Strength," she says the results already are amazing.

To illustrate how Vola-Tonic built up her strength, Mrs. Nageleisen told of the difference she can notice now when doing her sweeping.

"Sweeping used to tire me out, but since Vola-Tonic built up my strength it is easy for me," she said.

"I was run down and weak and nervous before I took Vola-Tonic. My appetite was very poor and the little food I did eat didn't digest right. I felt so badly that at times I could hardly get about and my work was becoming harder and harder for me.

"Vola-Tonic's work is amazing. I haven't taken all of the first bottle yet, but I can just feel it helping me and am getting better all the time.

"My appetite has come back and I can properly digest the food I eat now, so that it does me some good. The weakness and nervousness is disappearing and I am gaining in strength and already am so much stronger that the housework is a great deal easier.

"I am convinced that Vola-Tonic is all it is represented to be and I do not hesitate to recommend it to everybody."

If you are feeling weak and run down get Vola-Tonic, "Builder of Strength"—TO-DAY!—and get back real health and vigor.

Vola-Tonic is being specially introduced in Paris at Varden & Son's. (adv)

SWIFT & CO'S WEEKLY PRODUCE MARKET REVIEW.

There has been a good seasonable demand for fresh eggs and while receipts are increasing, general prices show little change. As production increases, prices may be expected to work lower.

Receipts of live poultry are not heavy and there is no material change in the market for dressed poultry. The lighter storage stocks are a factor to be considered and the market should hold steady to firm.

There has been little change in the butter markets; the tendency has been lower. This has been caused not so much by the actual receipts as by the fact that there is still a large amount of butter in storage. Foreign importations also are beginning to arrive at Eastern seaboard points.

Tact sometimes merely takes the form of laughing at a story and pretending you never heard it before.

FARMERS GETTING IN POLITICS

Entrance of the 7,000,000 American farmers as a unit into the political arena was forecast at Washington when the national board of farmers' organizations decided that all presidential candidates should be put on record as to their attitude toward the question in which farmers are interested. Each candidate will be asked to answer a questionnaire so that his position will be unmistakable.

MONDAY, MARCH 1, WAS BUSY "MOVING DAY."

March first is always a busy time for the movers, not alone the farmers and the tenants, but for householders to whom their surroundings have become too familiar, necessitating a change to other localities. March 1, and even on the preceding day, dozens of heavily-loaded wagons and motor trucks were busy wending their separate ways to their separate new locations.

Records show that more farm sales were made in this county in the last twelve months, or since March 1, 1919, to the present date, than at any other time, and at a much higher price, farms ranging in value from \$200 to \$800 an acre. March 1, 1920, found a large number of farmers and their tenants not quite ready to answer the trumpet call for "Judgment day," many of them having been unable to locate farms and tenants. The scramble for farm land and acreage will continue on through the early spring months, it is predicted by local real estate dealers. Many tenants have not yet closed their contracts for the year's work and will not get fully settled before April. Predictions of local real estate men who have specialized in farm lands are that there will be no decrease in the present price of farm lands, which will remain high throughout the year at least.

BOURBON STUDENT MAKING GOOD AT UNIVERSITY.

Lawrence Soper, of Paris, a Sophomore in the College of Engineering, is progressing admirably in his chosen work in the University of Kentucky. He is a strong student, and, as a result of the year and a half spent in the University, the greater number of his grades are A's and B's. A being the highest mark given and B the second highest. Mr. Soper is a member of the Charles Schwab Engineering Society. This is the Society of Mechanical Engineers, who began their work in the University in September, 1918, and therefore he should be graduated with the class of 1922. Young Soper has an enthusiastic interest in Mechanical Engineering and is concentrating his entire time on that phase of University work. For this reason he has not yet taken any active part in either literary societies or athletics, although he is keenly interested in both. He has shown marked ability and persistent application in his class work. His comrades predict for him a field of great usefulness when he shall have completed his prescribed course in engineering.

FATHER-AND-SON COMMITTEE CHANGE PLANS.

An important change in plans has been made by the Father-and-Son Program Committee. It has been decided not to limit attendance at the banquet to fathers with teen age sons only. Tickets for the banquet were put out in each church Sunday and already a keen rivalry has been sprung up between committees from the different churches as to which will have the largest representation present.

The ticket committee is composed of the following men: H. A. Power, M. Peale Collier, J. W. Payne, Harry Kerslake and E. T. Burris. Mr. Boatright, of the Program Committee has already secured the Paris Orchestra for the occasion.

AN ANNOYANCE THAT COULD BE AVOIDED.

Many patrons of the Paris Grand Opera House complain of a very annoying practice indulged in by many who get up and rush out of the house before the conclusion of the program. This should be stopped. And it is said that the management will make an effort to put a stop to it, on account of the many complaints that have been made regarding the matter. It is not very conducive of a tender feeling toward some fellow who climbs all over your anatomy in a frenzied effort to be the first one to get to the front door, while you—and perhaps yours—are awaiting the end of the performance. Similar complaints have been made to managers of houses in other cities, and it is to be hoped that Paris will take the initiative and end the annoying practice. A little consideration for others is often a fine thing. Anybody can be brutal, sometimes.

McKEE BROS. SPECIAL

Bred Sow Sale

For Kentucky Duroc Breeders and Farmers Monday, March 15, Forest Home Farm, Versailles, Ky.

Last fall we bred 350 sows and gilts. At our January sale we sold 52 of these which were pronounced by breeders as the finest of Durocs offered at any mid-winter sale. Out of nearly 300 remaining now on our 1,000 acre farm, we have selected another lot—52 of our choicest stock to be sold at public auction, Monday, March 15. These have been bred, fed and reared the same as those sold in January, and are recommended as being an exceptional opportunity for you to get Defender-bred Durocs at your own price.

Now Is the Time to Buy Hogs

There is a world shortage of hogs. In Europe the shortage is 23,000,000 head. It is hardly normal in this country. During the winter, and even yet, prices of feeding and hogs were out of proportion. In consequence, breeders and farmers have even cashed their brood sows. With forage crops coming on, feeding cost will be reduced one-third to one-half, and hog prices are sure to go up. Hogs will help you solve the farm help problem. They will harvest your small grain and corn crops at no cost and will leave the land richer and more profitable. With Defender Durocs, you are playing safe, sane and sure agriculture.

sows that farrowed for us last spring averaged 11 pigs to the sow. There is no reason, we are aware of, why the animals in this sale should not do equally as well.

Write To-Day For Sale Catalog

(Use the coupon that will bring a catalog by return mail.) Gives not only the breeding of every animal, but a lot of helpful information. Remember, McKee Bros. are breeders who are always ready to help you with your hog problems. We are breeders, not traders or speculators. We have made Defender Durocs the biggest of the big type; the Improved Duroc the money-making hog. They will put on more meat where meat is money than any other hog. Raise Durocs and come to this sale and get your own selection. But write for catalog to-day. If you are in need of a herd boar, come to the sale. We have some choice offerings that we can let you have at private sale.

Defender Durocs Famous Money Makers

For Defender Durocs, there is always a good market. Our large operations, domestic and foreign, often make it necessary for us to go into the market to buy back hogs of our own breeding. Naturally, we prefer to buy near at home. In making this second offering of our Defender-Colonel line-bred Durocs, we have kept in mind your special needs. We want to work with you to make Kentucky the leading hog State and give the Kentucky thoroughbred Duroc equal fame with the Kentucky thoroughbred.

Defender Colonel Durocs, the biggest of the big type, need no introduction to Duroc breeders. They are famous for size, confirmation, bone and prolificacy. The 70 fine

BACK HURT ALL THE TIME

Mrs. Hill Says Lydia E. Pinkham's Vegetable Compound Removed The Cause.

Knoxville, Tenn.—"My back hurt me all the time, I was all run down, could not eat and my head bothered me, all caused by female trouble. I was three years with these troubles and doctors did me no good. Your medicine helped my sister so she advised me to take it. I took Lydia E. Pinkham's Vegetable Compound and the Liver Pills and used Lydia E. Pinkham's Sanative Wash and now I am well, can eat heartily and work. I give you my thanks for your great medicines. You may publish my letter and I will tell everyone what your medicines did for me."—Mrs. PEARL HILL, 28 Jacksboro St., Knoxville, Tennessee.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

Biding Her Time.

Florence was visiting her grandmother and maiden aunt. The former was indulgent, while the latter was inclined to be severe. One day while grandma had gone shopping, Florence was left to the mercies of her aunt, to whom it appeared she was unusually naughty. Upon being told that she would get spanked if she did not behave, she looked up at aunt and with tears in her voice, said: "I'm going to cry when my grandma comes back."

Never Drink Water.

A large number of the smaller kinds of desert mammals never drink water. They live and thrive on dry seeds and scraps of vegetation in places where the heat and aridity are excessive without even touching their lips to water, and it has been found impossible to teach some of them to take water in captivity. Apparently they never know thirst or the delight of quenching it.

PALMER FORMALLY ANNOUNCES FOR PRESIDENT

ATLANTA, GA., March 4.—A Mitchell Palmer, of Pennsylvania, Attorney-General of the United States, Monday night formally announced his candidacy for the Democratic nomination for the Presidency in a telegram to Hiram L. Gardner, Secretary of the Georgia State Democratic Committee.

The telegram from Mr. Palmer read as follows: "I understand that my friends have entered my name in the presidential primaries. If the Democrats of the State of Georgia see fit to elect me as their choice, I shall receive the honor with deep appreciation."

"I deem it to be highly important that the Democrats of Georgia should have the opportunity to pass directly upon the record made by the present administration. The candidacy of one who supports that record in every phase presents that opportunity."

FEDERATED CLUBS HELD MEETING AT LEXINGTON

The annual convention of the Seventh District, Kentucky Federation of Women's Clubs, opened at ten o'clock Friday morning at the University of Kentucky with the Woman's Club of the University as host. In the absence of the District Chairman, Miss Ada May Cronwell, whose brother is seriously ill, Mrs. W. T. Lafferty presided.

Mrs. Allie Smith Dickson, of North Middletown, made the response to the address of welcome delivered by Mrs. P. P. Boyd, president of the University Woman's Club.

The reports from the clubs in the Seventh District were very interesting, each being a resume of the work done by the clubs during the past year and the part they took in the various activities in which women's organizations have been engaged. Mrs. Fanniebell Sutherland, of Paris, gave an interesting report of the Civics Department.

The report of the Bourbon County Health and Welfare League showed that 163 babies were measured and weighed; clean-up day was observed; a Christmas tree with a Santa Claus, toys, candies and fruits was provided; the school penny lunch has been made self-sustaining; the sale of Red Cross seals amounted to \$750; 1,798 nurse's visits were made; thirty-five tubercular cases were treated; families were supplied with coal, groceries, milk, blankets, books and glasses for children; \$3,050.96 was received and \$2,762.22 expended from the funds of the club and \$638.66 from other sources.

Mrs. James McClure, of the Bourbon County School Improvement League, reported that the organization would pass out of existence with the close of the State Federation meeting at Madisonville, in May, as its field of usefulness has been taken over by other organizations.

The Paris Literary Club reported endorsement and participation in the Citizens' League movement; Thrift Stamp campaign; Kentucky Memorial campaign; Y. W. C. A. educational campaign; campaign against Sunday movie shows. The club has started a movement to organize a departmental woman's club and members gave personal assistance in the installation of a cataloging system in the library.

Mrs. J. Elgin Poole, of Millersburg, was a member of the Committee on Resolutions. Others from the county attending the session were Miss Elizabeth Grimes, Mrs. James McClure, Mrs. Charlton Alexander, Mrs. Ruby L. Arnsperger, Mrs. Frank P. Lowry, Mrs. Fanniebell Sutherland, Mrs. J. T. Collins, Paris; Mrs. Arthur Best, Miss Ruth McClintock, Millersburg; Mrs. Allie Dickson, Miss Mildred Collins, North Middletown.

I had a dead, dull ache across the small of my back and my kidneys acted irregularly. Doan's Kidney Pills rid me of those complaints and if I should need a kidney remedy again I would certainly take Doan's."

Keep Accounts.

Farming is a business the same as banking or running a mercantile establishment. There are products to be sold and articles to be bought. The keeping of a record of these and determining the relation of the outgo to the income are important considerations on every farm. The farmer should know what his income is and just how he is disposing of it. He can know this only by keeping books and the first of the new year is the proper time to begin. —Exchange.

A Kentucky Woman's Experience

Paducah, Ky.—"It is a pleasure to me to recommend a medicine that has done me so much good as Dr. Pierce's Favorite Prescription. I have taken it as a tonic during my pregnancy. I have been such an enthusiast over 'Favorite Prescription' and the benefit I have received from it that I have not only recommended it to my friends but to my own daughters as well and I have never known of a case where it has failed in giving the results desired."

MRS. CORA SMALLMAN, 908 N. 8th St.

A Nervous Wreck

Louisville, Ky.—"I was certainly a nervous wreck before I took Dr. Pierce's medicines. I was nervous, my back ached all the time and I had intense pains. When I refused to submit to an operation my doctor told me about Dr. Pierce's Favorite Prescription and Lotion Tablets and although I had very little faith in any medicine and thought I was going to die, I got these medicines at the drug store. My recovery was so rapid and complete that it surprised the doctor; even he thought it would be just temporary relief, but I am thankful to say that it is apparently a permanent cure. I have had two children since, both of them 'Favorite Prescription' babies, for I took this splendid tonic all the while. My health was fine and I had practically no suffering. I cannot praise these remedies too highly. I only hope my statement will be the means of many other women being restored to perfect health by using Dr. Pierce's Favorite Prescription and his 'Lotion Tablets'."

MRS. NETTIE BURNS, 268 N. Campbell St.

Women who are worn out, who are nervous or dizzy at times, should take that reliable, temperance, herbal tonic, Dr. Pierce's Favorite Prescription, in liquid, or in tablets. Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., 10c. for trial package.

Happy Thought.

A married man has to be a brilliant liar to keep peace in the family. One of them talked about Mary in his sleep all night recently, and his wife's name is Sarah. And there was hettupay next morning until he had an idea and explained that he went to see Mary Pickford in a movie drama the night before and he dreamed about the show all night. And he got away with it, too.—Arkansas Thomas Cat.

From now on as soon as the statistics gathered by the census enumerators and special agents are assembled and verified, the data will be made public, the population of the larger cities of the country being given out first. Then will follow the population of the various counties, which number more than 2,900, together with their divisions of townships, precincts and towns, with the population of each incorporated city, town or village.

After the counties have been completed the population of the various States will be announced, and then the count of the entire United States.

As the population of the various cities, towns and villages are ready to be made public Director Rogers, of the Census Bureau, will certify to the Mayor or other executive head of each place the actual count as announced in the preliminary figures. Should any place consider its population inaccurately counted there will be opportunity to place proof before the Census Bureau, and, if a claim is substantiated, verification of the Census Bureau's figures will follow.

TORPEDOED!

Don't blast your Liver and Bowels, but take "Cascarets."

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious and upset, bothered with a sick, gassy, disordered stomach and colds.

Are you keeping your liver and bowels clean with Cascarets, or shocking your insides every few days with Calomel, Salts, Oil and violent pills?

Cascarets work while you sleep; they cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels. Cascarets never gripe, sicken or cause inconvenience and Cascarets cost so little, too. (adv)

UNIVERSITY TO DISTRIBUTE EDUCATIONAL FILMS.

The department of University Extension, University of Kentucky, has been designated as a center for the distribution of motion pictures to the schools of the State for the purpose of encouraging visual instruction through moving pictures in the various schools.

The University will receive motion pictures from government organizations and will establish a connection for the Bureau of National Park Service with the schools of the State. These pictures may be obtained by any school, provided only that the pictures be run upon standard machines, that borrowers be responsible for films while in their possession and that they pay transportation charges both incoming and outgoing which, within the State, will be a small item. A list of pictures that the University has at present for distribution may be obtained upon application to the Department of University Extension.

You never can tell. Even those who are out for the dust don't care to have it thrown in their eyes.

KERNELS TO BE SENT TO ALL HIGH SCHOOLS.

In accordance with its policy of extension the University of Kentucky has decided to send at least two copies of the "Kentucky Kernel," the official student weekly newspaper of the University, to each of the accredited high schools of the State.

This is expected to bring about a more cordial understanding of the ideals, aims, activities of the student body of the University of Kentucky, on the part of high school students of the State.

The Kernel in the high school should not only link the University more closely to them, but should supply a source of good reading matter for students and will no doubt arouse community of interest and feeling of fellowship throughout the State.

LINCOLN'S ADVICE.

Abraham Lincoln gave some pretty good advice when he said "Teach economy. That it is one of the first and highest virtues. It begins with the saving of money." It would be interesting to know just how many parents in this country have waked up to the fact that the teachers in our schools have organized their pupils into Thrift Clubs and are giving them systematic instruction in Thrift and Saving. If you are a parent, let your child's teacher know you appreciate this training being given for success and prosperity. And don't forget it is a duty of every parent to set his child a wise example. When did you buy your last War Savings Stamp?

Song-Loving Mocking Bird.

Many bird lovers who are now permanent residents of Florida, but who spent their early youth in the North, claim that the varied song of the mocking bird fully compensates them for the lack of the robin, the song sparrow, the oriole and other songsters that they were accustomed to hear and see among the orchards and hills of their Northern homes. The mocking bird in the South really fills the place in one's affections that the robin holds in the North.

Deeds Count, Not Years.

In the olden time people sought the fountain of youth, and they thought that a draught of its water would enable them to live forever. But the best of life is not its length, not the chronological quantity of it. Better fifty years of the moving, pulsating, busy life of the present than all the dull centuries of Methuselah. What did he do with all his weary years? He had the reputation of having been the oldest man, and nothing to show for it.—Exchange.

WITH THE "SHUT-INS"

(Contributed.)

The many friends of Miss Jennie Whittington will be delighted to hear that she is sitting up, and was able to be wheeled out into the sun parlor yesterday. Her bright, sunny disposition and vivacious spirit, despite her eighty-one years, have had much to do with her recovery, and have been an inspiration to all who have visited her bedside, and a help and comfort to us as we journey along day by day on life's pathway.

Mrs. A. H. Barclay, now eighty-six years old, has been an inmate of the Hospital for over a year. After much suffering and discomfort she was getting along nicely, able to walk around her room, when she slipped and fell. Fortunately no bones were broken, but a wrenched and sore condition of the muscles have put her to bed again. She is lying there patiently, assured that "some day she'll understand."

Miss Belle Ogden's condition is much improved, and she hopes to return to her home again soon.

A new broom sweeps clean. It ought to. It costs about twice as much as it used to.

—Dr. William M. Cummins has resigned the pastorate of the Winchester Presbyterian church, having been appointed State Evangelist. The appointment was made by the Executive Committee of Home Missions of the Presbyterian Synod of Kentucky.

"SYSTEMATICS."

The church is not a business. But there is no reason why business principles should not be applied to the work of the church. For many years men carried on their business in slipshod ways. Many merchants could not tell you where their business stood at the end of the month.

Farmers really did not know whether they were making anything above their "bacon and eggs" on their farms. But these days have gone forever. The progressive business man of to-day can look at his books and in a short time tell you where his business stands. The up-to-date farmer knows whether his farm is a business success or just a place to exist. They have applied system to their work. There are many evidences that the church of to-day has become dissatisfied with the old happy-go-lucky ways of doing its work. That the church is applying business sense to its service for God and humanity. One of these evidences of progress in the church is the "Every Member Canvass" program which the Southern Presbyterian church is staging. It is a systematic canvassing of every member of the church to solicit their interest in the work of the church and their gifts to the church. Its policy is that no widow is too poor to want to give her mite. And that the rich man have the privilege of giving as the Lord has prospered him. The church is of and for the highest and the lowest, the young and the oldest, the rich and poor, the banker and the laborer, and each has the right to demand, and the privilege of taking an interest in its work, of benefiting from its ministry, and of helping in all of its causes. The Paris Presbyterian church is making the effort to put this kind of "Systematics" into their church work.
